

## GILT EDGE M.D. SET TAX RATE & ROAD WORK PRICES

A meeting of the Council of the M.D. of Gilt Edge, was held on April 7th when all the Councilors were in attendance.

The minutes of the previous meeting having been adopted on a motion by Councilors were in attendance.

Moved by Councilor Mills—That permission be given to the superintendent of the Dominion buffalo park to build a temporary lane across the road allowance between sections 25-44 and 31-44-6—Carried.

Moved by Councilor Wallace—That Mr. L. Roy be allowed 25c per day for use of Fresno and 75c for sharpening plow-share—Carried.

Moved by Councilor Mills—That resolution of last meeting, re appointment of Mr. McConnell as auditor, read "at a salary of \$100.00 which shall include expenses"—Carried.

Moved by Councilor Wallace—That Councilor Black be permitted to withdraw from the meeting until the matter of purchase offers for the S.W. 34-46-3 be settled—Carried.

The following offers were considered—Mr. L. Babb, \$600.00; \$60 cash and \$60 per year until paid with interest. Mr. J. Black, \$700.00; \$100 cash and \$100 per year until paid with interest at 7 p.c.—Carried.

Moved by Councilor Wallace—That offer of Mr. J. Black be accepted and that secretary draw up the necessary agreement—Carried.

Moved by Councilor Traynor—That the secretary draw up a contract leasing the N.E. 14-44-4 to Mr. C. Knutson of Edmonton for calendar year 1925, subject to 60 days notice of sale—Carried.

Moved by Councilor Fox—That Councilor Wallace be instructed to accept offer of \$200 for old stringers from bridge located between 25-44 and 26-44-5—Carried.

Moved by Councilor Traynor—That the municipal tax for current year be set at five mills.

Amendment moved by Councilor Mills—That the said tax shall be six mills—Carried (4 ayes, 2 nays).

Moved by Councilor Black—That the wages for roadwork for the current year be set as follows—one man and four horses, 80c per hour—Carried.

Moved by Councilor Mills—That the foreman and grader man be paid at the rate of 45c per hour.

Moved by Councilor Othmer—That the secretary request Mr. Robertson, the provincial engineer to attend the next Council meeting—Carried.

Moved by Councilor Wallace—That compensation of \$200.00 be paid for deviation on N.W. 18-46-4, and also \$200.00 for deviation on S.W. 19-46-4—Carried.

Bills and accounts amounting to \$253.13 were ordered paid, and the Council then adjourned until Tuesday May 26th, 1925.

**NO; THIS WAS NOT IN WAINWRIGHT**

Parrboro, N.S.—A crisp new one thousand dollar bill was among the Easter offerings to Saint George's Anglican parish here and the pastor Rev. C. R. Harris, together with his congregation, is wondering who the generous donor may be. The money came in a plain envelope, post marked Halifax, and unregistered accompanied by a brief note stating that the sender wished to assist the parish but desired to remain anonymous.

Hoping to regain his former health Mr. A. Beckett is spending a few weeks at Banff.

\*\*\*We have Pennsylvania blacksmith coal—the very best. On hand at the Atlas yard; phone 57.

We learn that Mrs. Dinsmore is arranging to leave for the States where she will join her husband. She is selling her property.

We are glad to know that Mr. P. Murray, who has been receiving medical attention in the city, has now improved enough to return home.

Mr. Brown, the accountant at the local branch of the Bank of Montreal has now returned from his trip to Winnipeg.

\*\*\*Fire has completely ruined many. Don't let it ruin YOU; keep insured in one of the young companies represented by Joe Welch; phone 57.

Mr. H. Herbert is this week moving his family out to his farm south of Hensh.

## British Pet. Will Start No. 6 Well

Forty Foot of Oil Sand in No 3 Hole Shown By Test; Large Crowd See Coring Test & Hear Geologists' Favorable Opinions

## Government Petroleum Engineer Tests Maple Leaf No. 1 Which Stands at 750lbs. Pressure Highly Volatile Wet Gas

It was a truly enthusiastic crowd that visited the British Petroleum well No. 3 last week end for the purpose of seeing the operation of coring into what has now proved to be a forty-foot oil pressure which was found to be the sand of the highest quality yet discovered in the Wainwright field.

In addition to a number of local gentlemen, there were present at the test Dr. C. Galbraith, director, from Vancouver; Mayor Blackford, Edmonton; directors, T. Sugars and Robert Jones, Dr. J. Allan, C. A. Dingman government petroleum engineer; W. McAdams of the Imperial Oil Company; R. Shaw, E. T. Bishop, solicitor for the B. P. Company; Mr. and Mrs. Sharpless, of Vancouver; E. Stansfield, of the University of Alberta; Harry Morris, John Michaels and Messrs R. Williams, of the Maple Leaf Co., and R. Spencer, of the Western Consolidated were also in the crowd present with many others, all of whom left thoroughly satisfied that the light oil which is being so much sought after in Alberta may eventually be obtained right from the spot they visited.

The full depth of the oil sand which has just been reached is forty feet, and the samples of the coring taken from the well at this depth—272 feet—give the very best indications of oil which have yet been struck in this field. In the No. 2 well the oil was brought in when the drilling was only sixteen feet, only eight feet of the No. 4 hole, only eight feet of the No. 5 hole, and only eight feet of the No. 6 hole, while the No. 3 hole, which is being drilled to a depth of 400 feet, would be valuable to oil companies and investors and greatly aid in the development of the field by the providing of information that is now so vitally necessary.

Dr. C. T. Galbraith, director of the British Petroleum Company, was gratified over the results of the day's work. As to the company's program for the season, that would largely depend upon the success of present development work, he said. While the company officials had heard that the C.N.R. tests of fuel oil from Wainwright had proved satisfactory, there was nothing of an official nature shown from the heads of the railway to confirm these reports. Consequently, the company was waiting for some official word before a statement could be made to the public.

One puzzling development at No. 3 well was the striking of a coal seam at nine feet in depth. In the opinion of the various D. W. Dunn, a geologist, oil samples obtained, while there was a strong odor of oil which at times was more pronounced than at other periods, time that coal has been discovered at this depth in the field. A sample of this coal is being sent to the mines department at Ottawa for analysis.

No. 3 well is about four miles north of the town of Wainwright, and No. 2 which failed to produce oil, and No. 1 which is steadily flowing at No. 2, where there is a pit that contains several hundred gallons of the oil.

No. 2 well is flowing with a loud roar of gas, although the release valve is only partly open. This well is supplying gas that is piped one mile to the east side of No. 3 B.P. well site, where it is used as a producer.

Heavy oil is steadily flowing at No. 2, where there is a pit that contains several hundred gallons of the oil.

On arriving at the well, the party watched the core that had been previously drilled, taken out for examination.

After samples of the core barrel had been examined, it was freely recognized that there is oil in this well. It was felt that the sands are the best that have been reached yet in this field. Oil nine feet in depth. In the opinion of the various D. W. ## "THE HILL BILLY" JACK PICKFORD AT THEATRE FRI.

A good many decades ago, according to legend, a lone wolf stalked to the summit of a peak in the mountains of Kentucky, pointed his nose toward the sky, and stood silhouetted against the darkening clouds. His head lifted heavenward, the wolf sent forth his dismal cry. To the mountain folk that isolated region, the howl of the beast came as an ill omen.

That is the reason the valley sprawled between the mountain ridges became known to the inhabitants as "Valley of the Wolf." That is the reason also, why Jack Pickford, youthful screen star and independent producer, selected the "Valley of the Wolf," as the locale for his latest Allied Producers and Distributors' Corporation release, "The Hill Billy," which comes to the Theatre next Friday and Saturday.

"The Hill Billy," is an original story of the Kentucky mountains and the young mountain folk of more than two decades ago, written by the young star himself, his celebrated sister, Mary Pickford, and Marion Jackson, the writer.

Miss Pickford and her brother, Jack, have admirably tinted the scenes of the story with the wistful feeling and longings of a young mountaineer whose mind rises above the narrow confines of life in the hill regions.

In the leading role, Jack forgets the parting in his hair, the stiff collar, the tuxedo, and appears in tattered garb and bare feet, in that characterization of American youth, which has endeared him to the hearts of the motion picture public.

For nearly two years Jack Pickford was not seen on the screen and this time he was with his famous sister as one of her film directors.

## FRANCHISE IS SOUGHT FOR THE SUPPLY OF NATURAL GAS

The regular semi-monthly meeting of the Town Council was held on Wednesday last when all members were in attendance with Mayor Cork in the chair.

The minutes of previous meeting having been read and confirmed.

A communication was read from Mr. Hoegh applying for permission to erect and install a gasoline pump and tank, the tank to be placed underground on Second avenue, under the sidewalk on the north side of applicant's business premises.

Knowles-Forster—That permission be granted Mr. Hoegh to install gasoline tank as outlined in his application, the sidewalk to be repaired and kept in repair adjacent thereto by the applicant—Carried.

A letter was read from Mr. R. Williams, managing director of the Maple Leaf Oil Co., asking for information regarding the town in connection with a proposition for the franchise for the supply of natural gas.

Fraser-Lisimore—That the communication from Mr. Williams of the Maple Leaf Oil Co. regarding supplying gas for Town of Wainwright be acknowledged by secretary giving the desired information—Carried.

A communication was read from Mrs. Holt, asking for a rebate of taxes on her property situated in the town.

Lisimore-Welch—That the secretary notify applicant that the Council have not this power under existing circumstances—Carried.

The recorder of brands forwarded the cut, description and allotment of brand registered in the name of the Town of Wainwright.

Welch-Forster—That a brand as specified submitted by the recorder of brands be ordered made by a local blacksmith—Carried.

The committee on Public Works and Scavenging reported that the cinder crossing at Seventh avenue as petitioned for has been installed.

The contract between Mr. R. Bailey and the Town of Wainwright has been signed by Mr. Bailey, and that he has taken over the work. Owing to the accumulations of the past winter, it will take another couple of weeks before the alleys can be cleaned up, but with the co-operation of the citizens, it is expected that the town will soon be in a cleanly condition.

Knowles-Forster—That the report of the Public Works and Scavenging committee be accepted, and that the necessary signatures and the corporate seal be attached to the contract—Carried.

The committee on Rink Management reported that the repairs as set forth are completed according to plans and specifications as recommended, at a cost of \$100.00, and that the committee have entered into an agreement which reads as follows:

1.—The party of the first part agrees to rent to the party of second part that portion of the municipal skating rink occupying the upstairs rooms as now constituted, having access to the same from an outside stairway not being less than five feet in width, for a period of one year from the date of this agreement for the sum of ten dollars per month until the 31st day of August, 1925, and after that date the sum of fifteen dollars per month, payable in advance at the office of the secretary treasurer.

2.—The party of the first part to furnish and keep in repair at all times a suitable fire exit and escape.

3.—The party of the second part agrees to keep the rooms as now constituted in a reasonable state of repair any alterations being made to same to be subject to the approval of the Rink Management committee, the expense of same to be borne by the party of the second part.

4.—The party of the second part to furnish heat, light and caretaking for that portion of the building mentioned aforesaid.

5.—The party of the second part to have use of the rooms for social purposes as they deem proper, it being understood that no exhibition by means of which film or any other material of an inflammable nature will be used for the purpose of conducting such exhibitions.

6.—Either party shall have the right to determine this agreement upon giving one month's notice in writing to the other, for any plausible reason he or she may desire.

Lisimore-Welch—That the report of the Rink Management committee be adopted and the necessary signatures and the corporate seal attached to the agreement—Carried.

The committee on Electric Utility reported that as the time is now op-

portunity, and the necessity of the work imperative, we would recommend that tenders be called for the completion of the low-voltage line, raising same etc. as demanded under the Provincial Act governing these matters, and also for the installations of three extra transformers, which your committee fully consider necessary. We would suggest that the advertisement calling for the tenders stipulate that same may be submitted in either of two forms, i.e.—For supply of materials and installing complete, or for the necessary labor only.

Huntingford-Fraser—That the report of the Electric Utility committee be adopted—Carried.

Welch-Huntingford—That an advertisement be inserted in the local paper pointing out that all owners and harborers of dogs in the town limits for which no dog license has been obtained, if not paid prior to April 30th 1925 will be prosecuted under the existing bylaws governing the same—Carried.

Forster-Welch—That the Court Revision be held on the 18th day of May, 1925, in the Council Chamber at 10 o'clock a.m.—Carried.

The Council then adjourned.

## ON PARLIAMENT HILL

OTTAWA.—At least three notable speeches characterized the short week in Parliament prior to the Easter adjournment. Andrew R. McMaster (Bronx) and Hon. A. D. Hudson (Winnipeg South) delivered telling indictments against the protective system advocated by the Conservatives, while Hon. W. R. Motherwell, Minister of Agriculture, made a strong appeal for co-operation between the Western Provinces and the Maritime Provinces in tariff and other matters of Federal concern.

"The main attack made upon the Government," said Mr. McMaster, "is that it has not raised the duties—not that it has not sufficiently lowered them. The attacks by the Conservatives are based on the charge that the Government has not raised the duties although they say it should have done so, and a good deal of argument has been addressed to the farmers of this country in that connection. They are told that they are being betrayed and badly treated by this Government because it has refused to put up the duties on agricultural products. Well, I am not going to emulate the fashion in which he, member for Fort William and Rainy River (Hon. Dr. J. Maanen) has addressed this House: 'I am not going to talk of gold bricks or of silver dollars, or anything of the sort. I'll say this: that any attempt to pretend that the farmers, as a whole can be benefitted by the imposition of duties upon what they produce and of which they have a large exportable surplus is a cruel deception. It is something which cannot be done. The farmers should not be allowed to believe that they can be helped by the imposition of a protective duty on what they have to produce, because as long as this country has a vast exportable surplus of agricultural products to send to the markets of the world the price which we get in those markets for that surplus is what determines the price of the entire production.'"

Declaring that a protective tariff does not really permanently establish and encourage Canadian industry, stop men from going to the United States and prevent unemployment here, Mr. Hudson on Wednesday gave to the House some convincing data gathered from various reliable sources and dealing with the tariff experience of Canada since Confederation. In the year 1878 he recalled that there was a small increase in Canada, trade fell off and people in the Dominion became uneasy. "The existing situation," he proceeded, "could be remedied the Conservative party claimed only by putting up a high tariff wall. It is the situation which they say exists today and can be remedied only by adopting similar means." Such a course was adopted by Sir John A. Macdonald in 1879.

From 1881 to 1891, a period of ten years, there was a small increase in the trade of Canada. Mr. Hudson increased only \$10,000,000.

Again, the protective policy did not serve to keep people in Canada. During those ten years there was a loss of population in the Dominion of 1,020,000. That was at a time when Canada's population was less than 5,000,000. That means," he said, "that one person in every five that we had in Canada left during that period."

Summarizing his argument Mr. Hudson said, "From 1868 to 1878 there was what was then called a tariff and might still be called a revenue tariff and there was a substantial increase in population a moderate increase in trade. During the second period, from 1878 to 1891, there was a lowering of tariffs, an immense increase in immigration and a very large increase in foreign trade." The fourth period was that of the war which, Mr. Hudson said, was an abnormal period and for that reason he did not propose to use it for argument.

## SERVICE CHANGES LEAVE WAINWRIGHT NO MORNING TRAINS

The summer schedule of the C.N.R. which goes into effect at midnight on Saturday, May 2nd, sees quite an alteration in the service provided for Wainwright and in fact cuts out the two morning trains altogether. This will mean that a visit to the city will entail at least two nights and a day to make the trip and do any business there, and will no doubt prove somewhat awkward for those who have been accustomed to make the full return trip in the one day henceforth.

The new schedule is as follows:—No. 1, westbound—Arrives Wainwright, 6:50 p.m.; leaves at 7 p.m., arriving Edmonton at 10:50 p.m.

No. 2, eastbound—Leaves Edmonton at 7:10 a.m.; Arrives Wainwright, 10:50 a.m.; leaves 11 a.m.

No. 3, westbound—Arrives Wainwright, 3:10 p.m.; leaves 3:20 p.m., arriving at Edmonton at 8:25 p.m.

No. 4, eastbound—Leaves Edmonton at 8:50 a.m.; arrives Wainwright, 1:35 p.m.; leaves 1:45 p.m.

**POSTPONED**

A very considerable volume of legislation is left over for action by the legislators when the provincial house meets later in the year in special session.

It is thought better for the government to postpone these matters rather than to rush them through the house in closing hours of the session.

If the government had advanced these bills far enough it might well make their contents known so that they may be discussed in public as well as in the legislature.

The Spray Lakes power matter, in particular, is one which the public should be informed as soon as possible.

## POSTMASTER LALLY, LOCAL WAR HERO, JOINS BENEDICTS

The home of the bride's parents, Lieut.-Col. William and Mrs. Rodden, Chauvin, Alberta was the scene of a very quiet wedding on April 14th when their eldest daughter, Mary Beryl, was united in holy wedlock to Mr. Conrad Tolendal Lally of Wainwright, son of the late Conrad C. W. Lally and Mrs. Lally of Wainwright. The Rev. P. F. McSwen, of Chauvin officiating.

The bridegroom, who is one of Wainwright's old timers and who is now holding the responsible position of postmaster, is probably better known as one of Wainwright's heroes of the Great War. He enlisted with the R. F. C. and saw many engagements while attached to that branch of the service; and during that period suffered many narrow escapes from the grim reaper. He was awarded the M.C. and A.F.C. and on later occasion was again mentioned in despatches with the result that a bar was added to his original decoration. That award was presented to Mr. Lally by Archdeacon Lloyd in Wainwright.

The happy couple, after the evening train for their honeymoon and will later take up residence in Wainwright. Both the contracting parties being so well known (the bride having been for a long time on the Staff of the Bank of Montreal) are assured of the hearty good wishes of a large circle of friends and acquaintances for a long and happy married life.

\*\*\*You'll have to have your calls repapered this Spring. Let me call and show you my new 1925 samples of wall paper, whether you want it hung or not. It's no trouble to Harry Coffield.

Summarizing his argument Mr. Hudson said, "From 1868 to 1878 there was what was then called a tariff and might still be called a revenue tariff and there was a substantial increase in population a moderate increase in trade. During the second period, from 1878 to 1891, there was a lowering of tariffs, an immense increase in immigration and a very large increase in foreign trade." The fourth period was that of the war which, Mr. Hudson said, was an abnormal period and for that reason he did not propose to use it for argument.

Coincident with the driving of the last spike at Craigellachie the company launched out as a promoter of foreign trade and transoceanic travel. The company was the first to offer regular service to the important factor in Canada, but one of the most important with the British Empire, which is saying a great deal, when it is recalled that the latter is the largest of the world's empires. The first regular service was inaugurated nine months after this spike had been driven there arrived at Port Moody, the terminus of the Pacific, a first of the first cargo from Japan for the railway. That little big the "W. B. Flint" of 500 tons, has grown into a fleet of 100,000 tons, and the company has become a powerful factor in America, Asia, and Oceania. In 1889 a regular trans-Pacific service was established, and in 1905 a similar service was launched on the Atlantic. The passenger feature of these steamship services has now become of chief importance. As an evidence of how the trans-Pacific trade has grown it may be said that in 1905 Canada sold to China only \$4.72 worth of products, but Japan only \$100,000 worth. In 1906 the figures were \$1,300,000 for Canada, Japan only \$100,000, and in 1907 the figures were \$2,300,000 for Canada, Japan only \$100,000, and in 1908 the figures were \$3,300,000 for Canada, Japan only \$100,000, and in 1909 the figures were \$4,300,000 for Canada, Japan only \$100,000, and in 1910 the figures were \$5,300,000 for Canada, Japan only \$100,000, and in 1911 the figures were \$6,300,000 for Canada, Japan only \$100,000, and in 1912 the figures were \$7,300,000 for Canada, Japan only \$100,000, and in 1913 the figures were \$8,300,000 for Canada, Japan only \$100,000, and in 1914 the figures were \$9,300,000 for Canada, Japan only \$100,000, and in 1915 the figures were \$10,300,000 for Canada, Japan only \$100,000, and in 1916 the figures were \$11,300,000 for Canada, Japan only \$100,000, and in 1917 the figures were \$12,300,000 for Canada, Japan only \$100,000, and in 1918 the figures were \$13,300,000 for Canada, Japan only \$100,000, and in 1919 the figures were \$14,300,000 for Canada, Japan only \$100,000, and in 1920 the figures were \$15,300,000 for Canada, Japan only \$100,000, and in 1921 the figures were \$16,300,000 for Canada, Japan only \$100,000, and in 1922 the figures were \$17,300,000 for Canada, Japan only \$100,000, and in 1923 the figures were \$18,300,000 for Canada, Japan only \$100,000, and in 1924 the figures were \$19,300,000 for Canada, Japan only \$100,000, and in 1925 the figures were \$20,300,000 for Canada, Japan only \$100,000, and in 1926 the figures were \$21,300,000 for Canada, Japan only \$100,000, and in 1927 the figures were \$22,300,000 for Canada, Japan only \$100,000, and in 1928 the figures were \$23,300,000 for Canada, Japan only \$100,000, and in 1929 the figures were \$24,300,000 for Canada, Japan only \$100,000, and in 1930 the figures were \$25,300,000 for Canada, Japan only \$100,000, and in 1931 the figures were \$26,300,000 for Canada, Japan only \$100,000, and in 1932 the figures were \$27,300,000 for Canada, Japan only \$100,000, and in 1933 the figures were \$28,300,000 for Canada, Japan only \$100,000, and in 1934 the figures were \$29,300,000 for Canada, Japan only \$100,000, and in 1935 the figures were \$30,300,000 for Canada, Japan only \$100,000, and in 1936 the figures were \$31,300,000 for Canada, Japan only \$100,000, and in 1937 the figures were \$32,300,000 for Canada, Japan only \$100,000, and in 1938 the figures were \$33,300,000 for Canada, Japan only \$100,000, and in 1939 the figures were \$34,300,000 for Canada, Japan only \$100,000, and in 1940 the figures were \$35,300,000 for Canada, Japan only \$100,000, and in 1941 the figures were \$36,300,000 for Canada, Japan only \$100,000, and in 1942 the figures were \$37,300,000 for Canada, Japan only \$100,000, and in 1943 the figures were \$38,300,000 for Canada, Japan only \$100,000, and in 1944 the figures were \$39,300,000 for Canada, Japan only \$100,000, and in 1945 the figures were \$40,300,000 for Canada, Japan only \$100,000, and in 1946 the figures were \$41,300,000 for Canada, Japan only \$100,000, and in 1947 the figures were \$42,300,000 for Canada, Japan only \$100,000, and in 1948 the figures were \$43,300,000 for Canada, Japan only \$100,000, and in 1949 the figures were \$44,300,000 for Canada, Japan only \$100,000, and in 1950 the figures were \$45,300,000 for Canada, Japan only \$100,000, and in 1951 the figures were \$46,300,000 for Canada, Japan only \$100,000, and in 1952 the figures were \$47,300,000 for Canada, Japan only \$100,000, and in 1953 the figures were \$48,300,000 for Canada, Japan only \$100,000, and in 1954 the figures were \$49,300,000 for Canada, Japan only \$100,000, and in 1955 the figures were \$50,300,000 for Canada, Japan only \$100,000, and in 1956 the figures were \$51,300,000 for Canada, Japan only \$100,000, and in 1957 the figures were \$52,300,000 for Canada, Japan only \$100,000, and in 1958 the figures were \$53,300,000 for Canada, Japan only \$100,000, and in 1959 the figures were \$54,300,000 for Canada, Japan only \$100,000, and in 1960 the figures were \$55,300,000 for Canada, Japan only \$100,000, and in 1961 the figures were \$56,300,000 for Canada, Japan only \$100,000, and in 1962 the figures were \$57,300,000 for Canada, Japan only \$100,000, and in 1963 the figures were \$58,300,000 for Canada, Japan only \$100,000, and in 1964 the figures were \$59,300,000 for Canada, Japan only \$100,000, and in 1965 the figures were \$60,300,000 for Canada, Japan only \$100,000, and in 1966 the figures were \$61,300,000 for Canada, Japan only \$100,000, and in 1967 the figures were \$62,300,000 for Canada, Japan only \$100,000, and in 1968 the figures were \$63,300,000 for Canada, Japan only \$100,000, and in 1969 the figures were \$64,300,000 for Canada, Japan only \$100,000, and in 1970 the figures were \$65,300,000 for Canada, Japan only \$100,000, and in 1971 the figures were \$66,300,000 for Canada, Japan only \$100,000, and in 1972 the figures were \$67,300,000 for Canada, Japan only \$100,000, and in 1973 the figures were \$68,300,000 for Canada, Japan only \$100,000, and in 1974 the figures were \$69,300,000 for Canada, Japan only \$100,000, and in 1975 the figures were \$70,300,000 for Canada, Japan only \$100,000, and in 1976 the figures were \$71,300,000 for Canada, Japan only \$100,000, and in 1977 the figures were \$72,300,000 for Canada, Japan only \$100,000, and in 1978 the figures were \$73,300,000 for Canada, Japan only \$100,000, and in 1979 the figures were \$74,300,000 for Canada, Japan only \$100,000, and in 1980 the figures were \$75,300,000 for Canada, Japan only \$100,000, and in 1981 the figures were \$76,300,000 for Canada, Japan only \$100,000, and in 1982 the figures were \$77,300,000 for Canada, Japan only \$100,000, and in 1983 the figures were \$78,300,000 for Canada, Japan only \$100,000, and in 1984 the figures were \$79,300,000 for Canada, Japan only \$100,000, and in 1985 the figures were \$80,300,000 for Canada, Japan only \$100,000, and in 1986 the figures were \$81,300,000 for Canada, Japan only \$100,000, and in 1987 the figures were \$82,300,000 for Canada, Japan only \$100,000, and in 1988 the figures were \$83,300,000 for Canada, Japan only \$100,000, and in 1989 the figures were ## PUBLIC NOTICE

## TENDERS

## TOWN OF WAINWRIGHT

Sealed Tenders will be received by the undersigned, up to 6 p.m. on Tuesday, May 5th, 1925, for the supply and installation of the necessary additions and alterations to the low voltage electric pole line in the town limits.

Tenders may be submitted for the complete work, including all material labor, etc., or for the necessary labor only (the Town supplying material). Tenders must be marked "Tender for Pole Line."

The lowest or any tender not necessarily accepted.

Plan and specifications may be obtained from "The superintendent, Power Plant Wainwright."

By order  
The Chairman,  
Electric Utility Committee.

29-4

## PUBLIC NOTICE

## Tenders for Buttermilk

TENDERS will be received by the undersigned, up to noon of Thursday April 30th, 1925 for the purchase of all BUTTERMILK as produced at the P. Burns Creamery, Wainwright, during season of 1925.

Tenders may quote price per tank, load, or for season's production, and must give guarantee to remove Buttermilk regularly as required.

The highest or any not necessarily accepted.

F. HARRINGTON, Manager  
Wainwright, April 8th 1925 15-4

\*\*\*You'll have to have your walls repapered this Spring! Let me call and show you my new 1925 samples of wall paper, whether you want it hung or not, it's no trouble to Harry Coffield, town.

## The Wainwright Star

W. J. HUNTINGFORD

Editor and Publisher

Published Weekly at The Star Office, Wainwright, Alberta.

Subscriptions  
To Subscribers in the 40-mile radius, 2.00 per year; other post office points Canada, \$2.50 per year; United States, England & Foreign Countries, 3.00 per year. All strictly in advance.

Advertising Rates  
Contract rates supplied on application.

Classified, strayed, etc. not exceeding 5 lines, 75 cents for first insertion; three insertions for \$1.50 payable in advance.

Transients—Cash, with Order

All changes for Contract advertisements will be inserted till forbid and charged for accordingly.

Accounts rendered monthly.

WAINWRIGHT, ALBERTA APRIL 24th, 1925

## STOPPING THE PAPER

Every once in while the editorial mail contains an epistle from an individual with a hobby or a grievance. These epistles emit wrath about something that has been printed in the newspaper, or about something that has not been printed. But they have an unvarying conclusion, which is a threat to "stop the paper."—says the "Summerland Review."

Of course every editor respects the opinions of his fellow men, whether they chance to be readers of his particular paper or not; if he did not, he could not expect his fellow men to respect his opinions. But the editor who undertakes to vary the policy of his newspaper to every complaint or humor, every hobby of several thousand readers, would soon find himself in the poor house or the padded cell division of the lunatic asylum. For this reason an editor, with a mind of his own and a certain amount of work to perform every day is obliged to keep a special corner of his waste basket ready for the communications of heated individuals who feel the impulse to "stop the paper."

People have been "stopping papers" for a great many years, but for some unexplainable reason newspapers continue to be published. The answer probably is that where one individual with narrow conceptions and hidebound prejudices takes offense at some truthful article, several hundred neighbors are inclined to applaud it. Another reason why editors are more or less contemptuous of the "stop-the-paper" bulldozers is that the great bulk of our citizens respect a newspaper which is frank and courageous, even when they disagree with its sails to catch every passing breeze.

This is a free country, and nothing is freer than the privilege of taking a newspaper or leaving it alone. Editors would be the last of all persons to wish it otherwise. But the dear reader who imagines that "stopping the paper" also stops the presses is the victim of a childish illusion. He hurts himself far more than he hurts the offending editor or newspaper.

By order  
The Chairman,  
Electric Utility Committee.

**MURINE**  
Keeps EYES  
Clear, Bright and Beautiful  
Write Murine Co., Chicago, for Eye Care Book

names of the owners of each of these parcels, as well as a full description of the property and the price and terms asked. The effect of this is to encourage settlement of lands not now utilized. Anyone, by naming the district he is interested in can secure the list of unoccupied lands for sale from the Natural Resources Intelligence Service of the Department, which also distributes this map.

Many other features are shown besides the land above mentioned. Forest reserves are delineated; so are Dominion parks and timber berths, as well as the location of Dominion Land Offices. In addition, Indian reserves, railways and the chief towns and cities are shown. The map conveys a wealth of information in a very easily obtainable form and should prove of material assistance to the intending settler and investor.

## Varieties of Oats

The average variety for ten years for three leading varieties of oats grown at the Scott Station on summer fallow areas follows: Banner 86.4 bushels per acre. Victory 65.9 and Gold Rain 65.4.

Another variety which has been tested here but three years is known as Gerlach and gives excellent yields. This variety was obtained from the University of Saskatchewan. The common varieties require about 110 days to mature. Some varieties have been tested at Scott which mature 10 to 20 days earlier but the yield has been too light to warrant recommending them for general use. A hullless variety to fifteen days earlier than Banner known as Liberty has been tested for and the yield has been about 60.0 of the Banner. The hullless oats are often used for feeding young calves, pigs or poultry, but for general feeding of livestock the common oats are the standard.

## Varieties of Barley

A four year average yield of varieties of barley grown on summer fallow at Scott are as follows: Bar's Excelsior 31.4 bushels per acre. Himalayan (hullless) 28.9, Duckbill 28.1 O.A.C. 21 27.9 and Chinese 25.3. The Himalayan is from 25 to 35 days earlier than the other varieties requiring only about 95 days to mature. The Himalayan is from 25 to 35 days earlier than the other varieties requiring only about 95 days to mature. The Himalayan is from 25 to 35 days earlier than the other varieties requiring only about 95 days to mature.

ALL GOOD THINGS RUN IN THREES

If three is a lucky number, then

There are three words in the title of half. This map portrays the province of Alberta, when we are beginning to desert the old risky annual adventure of straight wheat growing for the safer methods of modified summer fallow, corn, sun flowers and stock, there is nothing of more interest and importance than the growing of trees on the farm.

Have you ever stopped to sum up all the good things trees will do for the prairie farmer? In the first place they make his place noticeable, not a person passing, he is the neighbor, tourist, immigrant or prospective land buyer but will see it from even miles away. Trees are the most conspicuous landmarks anywhere on the prairie and planted farms always catch the eye. Passers-by may miss the condition of the soil or the crops or the buildings or the fences, but they never fail to comment on the plantations they see. These make an impression that is never forgotten. Trees create an attraction and a value you get in no other way and one that is most important for it must be remembered that it is not you that puts the final value on your place, it is the stranger

## WAINWRIGHT LODGE

No. 45, I.O.O.F.

Meets every Monday night at 8 p.m. in Oddfellows Hall over Wainwright Hardware.

Visiting brethren always welcome

H. C. MONTGOMERY N.G.  
E. TURNER, Secretary.

\*\*\*Yesterday will never come again; tomorrow may never come; but today has always been our friend and is the best time for you to ring up 57, The Atlas Lbr. Co. about your painting and building repairs which we will figure for you free of charge. Try Mureco for your walls this year—Joe Welch.

BULLETIN FROM  
PROVINCIAL GOVT.

**Splendid Price for Alberta Debentures.**  
Further evidence that Alberta Provincial Bonds still stand high in the financial markets, was given the past week, when the Treasury Department of the government disposed of an issue of \$3,740,000 five per cent, 25 years for refunding purposes, to the National City Company and the Harris, Forbes Company, of New York at a price of 99.159, which was considered a most satisfactory price. The sale was made through the Bank of Montreal, acting for the purchasers. There were six bidders for the bonds. Keen interest centered about the sale of the issue, the Montreal Financial Times remarking that the price received would be an indication of the whole trend of the financial market.

## Alberta Norwegians to

## Attend Centennial

Many Norwegians settled in Alberta are planning to attend the Norwegian Centennial to be held in Minnesota in June, commemorating the hundredth anniversary of the first Norwegian settlement in America. President Coolidge and other prominent men, including prominent Canadians, will be in attendance. Alberta has many in the province have been built up by these people.

## ANNUAL BULL SALES

Annual bull sales took place recently at Calgary and Edmonton. The average price at Calgary was \$129.64, with 405 animals offered. At Edmonton the average was \$118, for 67 animals offered. The top price was paid for Shorthorn calf, champion of the sale, bred by Dr. Talbot, and sold for \$350.

## Alberta Officials Honoured

Dean Howes of the Alberta College of Agriculture has been elected president of the dominion organization of Technical Agriculturalists, and G. M. Stewart, Dominion Seed Branch Representative in Alberta, has been elected president of the Alberta branch of the organization. The next dominion convention of the organization will be held in Edmonton, Alberta, on June 24th and 25th.

## Work of Public Health Nurses

Excellent work of the public health nurses maintained in various districts of the province by joint support of the provincial government and municipalities, is revealed in the annual report of the Nursing Branch of the Public Health Department of the Provincial Government for 1924.

The traveling child welfare clinics during the year held 25 clinics in rural districts with an attendance of 276 babies and 240 pre-school children. The city clinics also had a very successful year. At the Edmonton clinic the total attendance for the year was 3,583 with 2,900 babies in attendance and 98 clinics held. The nurses made 6,058 visits. At the Calgary clinic 113 clinics were held, with a total attendance of 4,618, and 3,646 babies. The nurses made 2,847 visits. At the Medicine Hat clinic there were 1,303 in attendance during the year, and the nurses made 1,242 visits.

During the year the six district nurses who are established in remoter districts for the benefit of the settlers made 621 calls, with 607 consultations attending 383 medical cases, 134 surgical cases and 35 obstetrical cases.

During the year clothing and relief of the total of \$21,407.25 was supplied.

## Plan Drive for Members for Pools.

Executives of the three new pools now being organized, to market dairy livestock and poultry products co-operatively, plan to hold a provincial-wide drive for memberships for the pools from June 8 to 28 next. Many signed contracts for the pools have already been received from farmers.

## Annual Convention

Women's Institutes  
The annual convention of the Alberta Women's Institutes will be held at the University of Alberta on May 26, 27, 28 and 29 next.

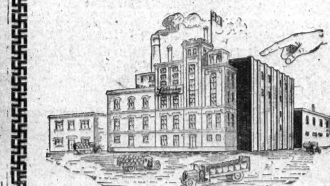

## May Buy Land in Alberta

Two members of the Hungarian nobility, Baron T. Chevasny and A. Chevasny, are now in Alberta arranging for the purchase of land in the Calgary district which they intend to farm.

## Wind and Tornado Insurance

Farmers, if your barn or granaries blow down, we will repair all damage if you carry a windstorm policy, \$7.50 per \$100,000 for three years. Town dwellings \$4.00 per \$1000 for three years. Quebec has just had an earthquake and the worst windstorm known known millions of dollars' worth of property in the States. Be prepared! Insure against windstorm with Joe Welch, phone 57

A Great  
Achievement

STORAGE CAPACITY  
30,000 BARRELS

DRINK  
THE  
BEER  
WITH THE  
GREEN  
LABEL

LETHBRIDGE BEER now rests in great storage tanks for months, housed in Western Canada's finest storage plant, erected at great cost and one of the latest and greatest achievements in the aging and perfecting of beer.

This modern structure added to our already highly-appointed breweries, combines to make Lethbridge not only one of the finest but the most modern brewery on the continent.

This famous beer ripens through remaining in these huge tanks, hundreds in number, housed in the most modern and scientifically arranged cellars, row upon row, the best that human intelligence could devise, becomes smooth rich and mellow—not until then is it distributed among its legion of users who, through its age and true goodness, insist on having—

THE EXAMINER'S  
WEEKLY REVIEW OF  
PROV. MARKETS

## CATTLE

**BEEF**—Lighter receipts and better demand at Edmonton made active competition and better prices, with choice heavy and light steers \$6.50 to \$7; good \$5.75 to \$6.25; medium \$4.75 to \$5.25; common \$5.00 down. Choice half-cows \$5.50 to \$6; good \$5 to \$5.50. Choice cows \$4.50 to \$5; good \$4 to \$4.50; common \$3.50 to \$4; choice bulls \$2.50 to \$2.75; good \$2 to \$2.25; common \$1.50 to \$1.75. **FEEDERS, STOCKERS**—Feeder strengthened this week and best feeders \$4.25 to \$4.50; stocker victor \$3.25 to \$4.50. Stock females \$2.50 to \$3.50.

## HOGS

Edmonton market firm since last report with long haul hogs \$12.20 to \$12.25 and other thick smooths, off cars, \$12, bacon 10 p.c. premium.

## SHEEP

Receipts at Edmonton also very light, but nominal prices on lambs \$12 to \$14; wethers \$10 to \$11; fat ewes \$6 to \$9.

## GRAIN

Prices on wheat have recovered a little and active marketing is looked for on the balance of the crop. Seeding has made a good start in south and in a portion of central Alberta. With the area of operations extending gradually in most sections the crop is going in well and there have been occasional light snowfalls, which have been readily absorbed.

## BUTTER-CHEESE

**CHEESE**—Receipts are improving and Alberta prices unchanged. **CREAMERY BUTTER**—Supply now approaching surplus point, and look-out has spring uncertainty. **DAIRY BUTTER**—Receipts at central markets still light and price unchanged, with slightly better demand for No. 2, which is quoted 12 1/2 c. **CHEESE**—Market firm and supply light in west. **EGGS**—Prices unchanged; receipts showing increase at all central markets. Grading causing considerable difficulty and some farmers said to be killing flocks. **POULTRY**—Not many birds moving and prices unchanged, with indifference to light Easter trade.

Alberta prices knocked endways by low priced imports from east; some potatoes in Edmonton of lower grade said to be selling at \$20

## AUCTION SALE

Under instructions from the owner I will sell on

THURSDAY, APRIL 23rd 1925

#### BAREE, SON OF KAZAN

(Continued from Page 2)  
his power, and Nepeese would have come to his cabin, as Marie came six months ago. But there was the accused French of it. Pierrrot and Nepeese were different. And yet—  
He smiled grimly, and his hands clenched tighter. After all, was not his power sufficient? Would even Pierrrot dare stand against that? If Pierrrot objected, he would drive him from the country—from the trapping regions that had come down to him as heritage from father and grandfather, and even before their day. He would make of

"And he pointed to the tall spruce under which the princess mother lay."

Pierrrot a wanderer and an outcast, as he had made wanderers and outcasts of a score of others who had lost his favor. No other Post would sell to or buy from Pierrrot if Le Bete—the black cross—was put after his name. That was his power—a law of the Factors that had come down through the ed at a sheet of paper under his hand on which for an hour or more he had been making notes out of worn an

## Reports on Canada's Crops

At frequent intervals throughout the season the Bank of Montreal issues reports on the progress of the crops in Canada. These reports, telegraphed to headquarters from the Managers of the Bank's 600 Branches, cover every Province and form a reliable index of crop conditions.

The reports are furnished free. Upon request at any Branch of the Bank your name will be placed on our mailing list.

### BANK OF MONTREAL

Total Assets in Excess of \$700,000,000.00

And Pierrrot had stared—had stared with that strange, stunned look in his face, like a man dazed by a blow from a club. And so it he did not get Nepeese without trouble it would all be Pierrrot's fault. To-morrow McGart would start again for the half-breed's country. And the next day Pierrrot would have an answer for him. Bush McGart chuckled again when he went to bed.

Until the next to the last day Pierrrot said nothing to Nepeese about what had passed between him and the factor at Lac Bain. Then he told her. "He's a beast—a man-devil," he said when he had finished. "I would rather see you out there—with her—dead!" And he pointed to the tall spruce under which the princess mother lay.

Nepeese had not uttered a sound. But her eyes had grown bigger and darker, and there was a flush in her cheeks which Pierrrot had never seen before. She stood up when he had done, and she seemed taller to him. Never had she looked quite so much like a woman, and Pierrrot's eyes were deep-shadowed with fear and uneasiness as he watched her while she gazed off into the northwest—toward Lac Bain.

She was wonderful, this slip of girl woman. Her beauty troubled him. He had seen the look in Bush McGart's eyes. He had heard the thrill in McGart's voice. He had caught the desire of a beast in McGart's face. It had frightened him at first. But now—he was not frightened. He was uneasy, but his hands were clenched. His heart throbbed with a smoldering fire. At last Nepeese turned and came and sat down beside him again, at his feet. "He is coming to-morrow, ma cherie," he said. "What shall I tell him?" The Willow's lips were red. Her eyes shone. But she did not look at her father.

"Nothing. Nootawé—except that you are to say to him that I am the woman of whom he must come for what he seeks."

Pierrrot bent over and caught her smiling. The sun went down. His heart sank with it, like cold lead. From Lac Bain to Pierrrot's cabin the trail cut within half a mile of the beaver-pond, a dozen miles from where Pierrrot lived; and it was here on a twist of the creek in which Wakivoo had caught fish for Baree, that Bush McGart made his camp for the night.

It was a splendid night that followed. Perhaps Baree would have slept through it in his nest on the top of the dam if the bacon smell had not stirred the new hunger in him. Since his adventure in the canyon, the deep forest had held a dread for him, especially at night. But this night was like a pale, golden day; it was moonless; but the stars shone like a billion

## THE GRADES OF CANADIAN EGGS NOW STANDARD

The value of egg grading will not have reached the limit of its possibilities until the buyers for the family table have learned to distinguish between the different grades which are "Extras," "Firsts," and "Seconds." Until one has learned to ask for "Specials" when the finest quality of new laid eggs is desired he will have no assurance of getting that quality of freshness and delicacy of flavor so desirable in a boiling egg. This which is the highest of the standard grades, is a product largely of the specialist poultryman who observes every condition for producing the highest type of egg and of getting it to market at once. Eggs of this grade are also the largest requiring to be 25 ounces to the dozen and uniform size. Eggs of the "Specials" grade are not on the market at all seasons of the year. The next grade, "Extras," to all but the most exacting, is a first class boiling egg lacking only that delicacy of flavor that goes with extreme freshness. This is a popular egg for the breakfast table and is obtainable at practically all seasons of the year. It might weigh a little less than the "Special" the standard being 24 ounces to the dozen. "Firsts" come into the class of smaller eggs being 22½ ounces to the dozen, and while still good they lack that flavor and texture of the higher grades. "Seconds" come within the culinary class, still sound in quality but not so fresh.

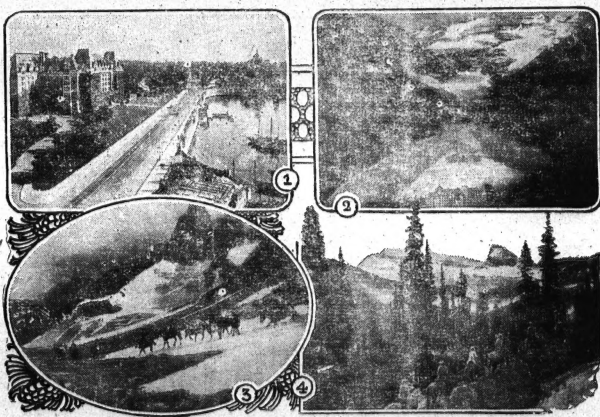

#### 500 FACTS ABOUT CANADA.

"500 Facts About Canada" is famous as a rich storehouse of information. At Frank Yeigh, the recognized authority on this country as writer, editor and lecturer. The 22nd annual edition is out for 1925, and will, as in former years, be welcomed by an appreciative public. Fifty chapters—titled from "Agriculture" to "Yukon"—include a series of striking facts presented in a crisp, terse form that astounds the mind. The 1925 issue contains much new matter, including a striking comparative table of our national growth during the quarter of a century since 1900. The book may be secured at leading dealers, or by sending 35 cents to the Canadian Fact Publishing Co., 588 Huron Street, Toronto. He who would know Canada will find this wonderful book a means to that end.

\*\*\*This is the time of the year to use a smaller coat for the ranges. We have the Penn in kitchen size which is less expensive, at the Imperial yard, phone 1-6.

\*\*\*Bacon floor paint and varnish have no equal. Get yours from the Atlas Lumber Co. J. Welch.

## Bringing the West to the East

1—Empress Hotel, Victoria, with dome of House of Parliament on right; 2—Alpine view of Lake Louise and Chateau; 3—Crossing the Wolverine Pass in the Rockies; 4—Trail Riders in the Yoho Valley.

Not the smallest part of the education of a Canadian Teacher should be a knowledge of the Dominion, derived from personal contact with its vast areas. When in addition to the Canadian Teacher's Federation in repetition of their very successful similar trip last summer, the party will leave Toronto west-bound July 20 and will be back in that city August 10. It will be the personal direction of Professor Sinclair Laird, Dean of the School for Teachers. The journey out and return will be over Canadian Pacific Railway lines, motor and boat stop-overs will be arranged at points of interest. Starting from Toronto in the afternoon, the train passes through a land of beautiful lakes, the Muskoka region, reaching Sudbury and continuing through the big game district of Northern Ontario and skirting the shores of Lake Superior for many miles before arriving at Port Arthur and Fort William, the twin cities where most of the western grain is stored. A day is spent in Winnipeg, the centre of the greatest grain marketing and inspection point in the Empire. Half a day is spent in Regina and Moose Jaw is reached the same day.

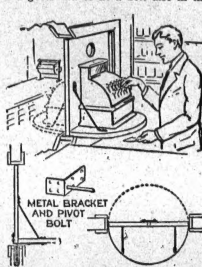

Then on to Calgary where the last of the prairie country is covered and the foot hills of the Rockies commence. Passing next day through the Gap, the gateway to the Rockies, where the roadway is hewn through the solid rock, Banff is reached on the first Saturday of the trip. At this point the traveller enters fairland. Banff is the headquarters of the Rockies Mountains Park, a region of 2,751 square miles, covering rivers, lakes and mountain scenery of unsurpassed grandeur. The weekend is spent in this district. Drives and automobile trips here make a pleasant contrast with the train journey and the wonderful sights will live long in memory. There is Lake Louise, an exquisitely colored limpid mirror of glaciers and snow-crowned peaks and the brilliant blue of the sky with its argus of fleecy clouds. Mount Stephen, Chancellor and Sir Donald rise into view as the Great Divide is crossed and the marvelous Yoho Park is traversed. Canyons, caves, valleys, deep gorges, passes twinkle past the train in its journey which is sometimes slowed up to admit of a more lasting impression. The scenery is so perfect that to avoid missing any the train does not travel at night and continues its journey all day. For 250 miles it passes through the Great Canyons of the Thompson and Fraser Rivers and the long day of fifteen hours is one unbroken picture of delight. Vancouver is at last reached and a short but interesting boat-trip is made across the straits of Georgia to Victoria with a panoramic

(As Seen by Popular Mechanics Magazine)

#### Double-Duty Cash Register

In a country hardware store a small radio department was opened and a partition erected to separate this section from the rest of the store. As the owner did not feel justified in purchasing a separate cash register for the new department, he devised the plan illustrated, which made it possible to use one cash register on both sides of the partition. A square section, a little higher and wider than the cash register, was cut out of the partition and the opening finished with casing. The bottom of the opening was deck-high, and a wooden panel was fitted loosely in this opening. A semi-circular shelf was fitted to the panel at the bottom and was supported by two round braces, as indicated, and a pole, about 3 in. in diameter, was cut through the panel just above the top of the register. This allowed a clerk on one side to see whether or not a clerk on the other side was using the register. A hole was drilled in the center of the bottom going to hold a socket for a strong pivot bolt, which was welded to a metal bracket, screwed to the panel and shelf as indicated in the detail. This permitted the panel to be swung around freely. It is a good idea to tie it a bolt also in the

Upper casing to give the arrangement greater stability and permit it to be turned more easily.

#### Correct Grid Leak in Your Radio Set Is Important

One of the smallest parts that enters into the construction of a radio receiver is the grid leak, and in connection with it the grid condenser. As usual with small details they are given little attention. It will surprise many to know that the volume and clarity of reception depend on the correct value of the grid leak and the grid condenser. The grid current is determined by the number of negative electrons that are attracted to the grid from the filament. The negative charge on the grid sometimes piles up to a point where it practically stops the flow of plate current; the grid leak relieves this situation and frees the imprisoned electrons, preventing the tube from choking. This requires a grid leak of correct value for the tube used.

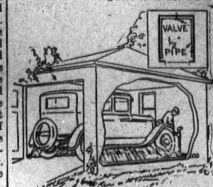

The grid leaks now on the market vary in efficiency; some are correct in value according to their rating, others nearly so, and many are found to be inefficient. When selecting the materials for building your set, always demand the best; this applies especially to grid leaks and grid condensers. Substituting different grid leaks of various resistances in your receiver will often be the means of improving volume and clarity of reception. Each type of tube requires a different type of grid leak and grid condenser. The values of these parts are usually supplied by the manufacturer of the tube, and will be found in the literature accompanying the tube when purchased. A good variable grid leak is recommended by some authorities; another plan is to have several fixed grid leaks varying in value from one to five megohms and you will be able to select the best one on trial.

The variable grid leak is a valuable instrument—if the average user would be content to let it alone once it is adjusted to the best value for the particular tube he is using. Once the leak is properly adjusted it should not be touched unless the tube is changed.

To write black on glass or bright metal, use a mixture of water glass (silicate of soda), 1 to 2 parts, and liquid India ink, 10 parts. Clean the surface to be written upon and use a steel pen.

#### Washing the Car Chassis

More mud and dirt collects under the body on the chassis than anywhere else on the car. A simple and efficient method of removing this is to use a stationary sprinkler of the kind shown in the drawing, provided water under pressure is available. It can be installed in any garage having a concrete floor and good drainage, and consists of two lengths of ½-in. water pipe, perforated with a number of small holes. The pipes are arranged along the side of the garage and connected to the water supply. The distance between the pipes should be a little greater than the tread of the car so that the spray will strike the underside of the chassis. Thus the water will reach parts that are nearly inaccessible when using a hose.

Cathedral Saved by Diver Working Years in Dark  
One of the most heroic accomplishments in the annals of engineering has come to light in the account of a diver who, working single-handed and in almost complete darkness, saved Westminster cathedral in England by renewing its foundations. The task consumed more of five and one-half years and was performed several feet below the surface, in slimy soil and water. The building was founded because it rested only on an eight-foot layer of wet peat. The diver removed this material in sections, substituting concrete which he himself brought down and laid on a firm stratum of gravel, flint and chalk below the peat formation.

## Items of Local Interest

BORN.—To Mr and Mrs Nordstrum, of town, on April 17th, a girl

BORN.—To Mr and Mrs M. B. McLeod, of town, on April 17th, a son

Mrs. Geo. Skeet, left at the week end to spend a couple of weeks with her mother, Mrs. A. McKay in Edmonton.

Plan your garden NOW! We have a full assortment of seeds at Wainwright Pharmacy.

Mrs. M. Nelson left on Sunday to pay a visit to her sister at Wetaskiwin. She was accompanied by her son Sidney.

The Coffed brothers have certainly improved the appearance of the theatre by the painting accomplished this week.

Get your Pennsylvania blacksmith coal from the Atlas yard. Joe Welch.

The Grace church choir are arranging a big musical evening for May 15th when Mrs. R. Upton, of Viking will be the headliner of a high-class programme given in the church.

Mr. Fred. Beresford was a business tripper to the city over the week end. Mr. and Mrs. A. Murray left for the city last week where they will in the future reside.

Lumber and building material of all kinds; prompt delivery and special attention given your requirements. See Mel. Fraser at the Imperial yard; phone 1-0

Miss Donovan was a visitor to Edmonton at the week end on a buying trip.

Mr. J. Hardie was a visitor to the home of Mr. W. Bowen at the week end, returning home to Edmonton on Sunday.

Build a nice picket fence around your lot; they look the best. We make the pickets any size you want at the Atlas Lumber Co. Phone 57.

It is requested that readers take note of the fact that the Carr sale which Bill Stuart will hold at Edgerton is on Friday next, April 24th. The advt. appears on another page.

The repair gang of the Alberta Pacific Co. have spent a busy week on the local house and everything is now out into first-class shape right through.

Boxed and Bulk chocolates at popular prices at Wainwright Pharmacy.

On Monday evening next, April 27 the local Oddfellows and Rebekahs will hold joint anniversary celebration in the lodge room. All members of the order with their husbands and wives—as the case may be for their sweethearts—are heartily invited to be on hand at 8.30 p.m. sharp.

Mr. W. Misener, the well-known piano tuner of Edmonton will be in town on his semi-annual visit early in May. Our readers may leave orders for his services at the Star office.

Bill Stuart held a successful sale on Saturday last when the goods of Mrs. Fraser went under the hammer at good prices.

After a week's absence in the city at the convention, the school staff were all on deck on Monday morning for the last big drive toward the mid-summer exams.

Mr. T. Rawn, of Ontario, president of the Dome Oil Co., is, we learn, making arrangements to take up his residence here in the near future.

The most lasting for the price; therefore the cheapest. Penn kitchen or stove coal and dry wood at the Imperial yard. Phone to Mel. at 1-0

A demonstrator for the Sherwin Williams Paint company will be at Hoegh's Hardware on Wednesday next April 29th, when he is offering to beautify your baby buggy for nothing. Better drop in and see him!

We are glad to know that little David Sutherland, who broke both bones in his left arm on Friday when he was thrown from a horse while driving cattle is now getting along nicely under the doctor's care.

We have a full line of Garden Seeds, the best obtainable. Wainwright Pharmacy.

Mr. Eph. Mills is enjoying a visit from his daughter who arrived recently from Billingham, Wash, U.S.A.

What might have proved a disastrous loss from fire at the Bud Cotton home was discovered just in time by Mr. G. Milne who was staying at the house during the owners absence. As it was, only a few bedclothes were destroyed. The damage as covered by insurance.

For your Spring housecleaning you will find a complete line of Paints, Varnish, Muresco and brushes at the Atlas Lbr. Co. J. Welch phone 57

Mr. J. Fuller is making preparations to move into the house on Second avenue which he has just bought from Mr. W. Lee.

Mr. J. Telford has rented his building on Second avenue to Frank Stott who purposes using the premises for an auto paint shop.

Painting and paperhanging is my specialty. Let me call and show you the new Spring patterns, and get cleaned up for Easter.—F. Stott, Town

Mr. M. Kemp who has now fully recovered from his recent serious illness was visiting his parents in town last week.

We learn that Mr. J. Bamelis has rented the "EY" ranch for this season.

When you need a big load of dry wood get it from the Atlas yard; phone 57. Joe Welch.

Mrs. A. Beckett and family were in Edmonton for a few days last week.

We understand that Mr. S. Aykroyd who went to the city to bring home his auto had to return by train on account of the state of the weather and the roads.

The local devotees of golf have sure spent a busy week in preparing the local links for the season's sport. They have worked out a great improvement there too!

We understand that possibly the first grain sown for this season was put in by Mr. J. Veitch, who had 60 acres of rye safely drilled in before the storm came.

We will call and take the measure for your screen doors and windows if you phone 1-0; the Imperial Lumber Co.
